PROFILE

An organized and hardworking candidate who thinks critically about a project assigned. Detail-oriented and a team player, able to manage deadlines and workloads with accuracy and quality. Disciplined and compassionate about the work that is produced, an optimistic individual who wants to design with conciousness to the overall context. Develops his persona and work ethic by listening and conversating with people, to create impacts that will leave a place better than what was found.

SKILLS

EXPERIENCE

May 2025 - Dec 2025, May 2026 - Dec 2026

DELV Design - Architecture Internship *Indianapolis, IN*

- Contributed to various tasks and projects, gaining hands-on experience in both the wonder and technical sides of architecture.
- Developed comprehensive site analysis and presentation materials for a Request for Proposal (RFP) involving senior stakeholders and decision-makers, attending and contributing to the interview.
- Involved myself in office culture, while ensuring work was done with quality and critical awareness to the details and timeline.

Aug 2026 - Dec 2026

Ball State - First Year Teaching Fellowship

- Taught first year students core principles of architecture, adding meaningful insights during their studio.
- Actively participated throughout my time, ensuring a positive and immersive studio experience.

EXPERIENCE

Aug 2022 - May 2027

Architecture, Ball State University *Muncie, IN*

- Presidential Scholarship
- *"Selected outstanding high school seniors are awarded a Presidential Scholarship"*
- 3.7 GPA

Aug 2018 - May 2022

Center Grove High School *Greenwood, IN*

- 4.1 GPA, Show Choir Section Leader, Concert Choir Section Leader, Student Government

AWARDS

2026

ACSA Timber In the City (20,000 SF Building), 2nd Place

- A collaborative project with teammate Amari, the project aimed to create a grounded architectural language that also dove into the technical elements of architecture. 18 awards were given out to 900 entries; completed in six weeks.

2023

IHLA Competition - Finalist

- Designed a museum centered on a continuous helical ramp winding around a central atrium, guiding visitors through a sequence of levels and spatial reveals. Ranked among the top 15 of 110 studio projects; completed in five weeks.

EXTRACURRICULAR

Jan 2025- Nov 2025

President, Phi Delta Theta

- Lead chapter meetings of 60 members to oragnize upcoming events, authorize key decisions, and engage in professional development
- Stayed present throughout my term, from hosting a 56-man alumni golf tournament to setting the chapter up with key momentum boosters; all while working my internship.
